Years of
Expertise
in the
Domain-Focused
Industry

Value UP Your Business

by our people, domain-focused industry experience, and commitment to delivering easy-to-integrate solutions.

Empower Innovation

through our strong engineering team across software, hardware, firmware, and application development.

Lead the Future

by advancing AIoT technologies with integrated hardware and software solutions and engineering excellence.

Support Customer Success

by helping system integrators, OEMs, and ODMs overcome real-world challenges with tailored solutions.

Create Greater Synergy

through expanded partnerships and a growing ecosystem that amplifies expertise and delivers more value.

Our Vision

To be one of the most trusted brands of AI-enabled industrial IoT solution.

Our Mission

To grow with our customers by providing best in class products and services.

Value Systems

Passion

We are passionate about our vision, our goals, and our commitment to serve our employees and customers.

Integrity

We earn your trust through honest and ethical business practice.

Innovation

Our focus is on developing new products using the most advanced technologies and customer-based experiences.

Partnership

We commit to long-term mutual success with customers, employees and stakeholders.

Leadership

Our goal is always to be the leader in our targeted markets.

Diversity

We strive to diversify our products and services to serve specific industry needs.

STRATEGIC BUSINESS FOCUS

AUTOMATION

To be at the forefront of the automation industry with a comprehensive suite of industrial and embedded solutions embraced by customers seeking the highest level of reliability, trust, and confidence in extreme environmental and mission-critical products.

RETAIL

To support the retail industry's quest to be the best in class. Our advanced, feature-rich, easy-to-deploy retail computer products are formulated for cutting edge retail applications, delivering consistent, seamless, positive shopping experiences through technology.

TRANSPORTATION

To offer exceptional value with end-to-end solutions targeting municipal rail, bus, heavy-duty vehicle, and marine applications. Our products meet stringent industry standards and certifications—including EN 50155, EN 45545-2, EN 50121-3-2, and E-Mark—ensuring reliable performance and safety.

NETWORKING

To work with our customers on IIoT innovation and make the world better connected than ever before, we offer a complete network appliance portfolio, IT-OT cybersecurity convergence and flexible COTS customization services encompassing firewall, routing, VPN, vCPE, gateway, and edge intelligence.

MEDICAL

To offer best-in-class, high interoperability, and easy-to-deploy medical-grade computing products with IEC 60601 certificates to serve in the medical field, giving healthcare professionals the tools they need to accomplish their goals.

GAMING

To offer standard form factor x86-based embedded boards, fanless embedded systems, displays, and embedded OS support for gaming machine suppliers, as well as system integration service and ODM/OEM service. We concentrate on keeping ourselves in line with the latest market trends of new generation gaming machines.

ESG

GOAL 2050 NET-ZERO EMISSIONS

Axiomtek remains resilient and forward-looking in the face of global challenges— from the pandemic and climate change to supply chain disruptions and international turmoil. Embracing ESG principles, corporate responsibility, and sustainable development, Axiomtek established a sustainable development committee in February 2021 to drive initiatives across environmental protection, ethical governance, and social impact. As a "hidden champion" and "industry benchmark", we drive innovation and sustainability with purpose, shaping a future of growth, responsibility, and global impact.

Design-in Service

Our creative concept of integrated services for embedded computing assures trusted delivery and valuable system integration from board-level design-in to system-level design for vertical markets in automation, transportation and much more.
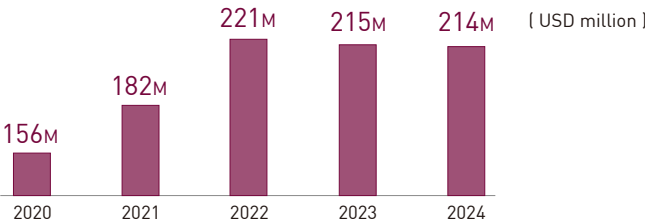

COMPANY RESOURCES

Founded in 1990, Axiomtek is a leading design and manufacturing company in the industrial computer and embedded field. Since our inception, Axiomtek has successfully gained worldwide recognition for our innovative designs and outstanding customer satisfaction. Our commitment to corporate social responsibilities is evident in our work environment as well as through our employee work ethics. We take pride and ownership in what we do through our commitment for excellence in quality and customer support.
